PROFESSIONAL SUMMARY

Senior Operations | Program Management Professional and Military Veteran with a Top Secret/SCI Security Clearance and leadership experience directing complex programs, enterprise risk initiatives, operational planning, organizational transformation, and cross-functional teams in high-security environments. Proven success translating complex requirements into executable strategies, strengthening organizational readiness, modernizing business processes, and providing executive-level decision support. Experienced in project management, stakeholder engagement, vulnerability and risk assessment, digital workflow implementation, data analytics, crisis response, change management, and workforce development. Recognized for leading high-performing teams, managing high-visibility initiatives, and delivering measurable improvements in operational efficiency, resilience, security, and mission continuity.

- Operational Planning
- Project Management
- Data Research | Analysis
- Stakeholder Management
- Digital Transformation
- Policy Implementation
- Quality Assurance | Control
- Joint Operations Planning
- Risk Mitigation

CAREER HIGHLIGHTS

- **Project Management** | Analyzed project needs including project plans and delivery schedules; established project management strategies and recommended the appropriate level of planning, scheduling, and control.
- **Operations Management** | Took the strategic vision of executive leadership and swiftly developed detailed plans of action, guiding staff in the execution of groundbreaking organizational objectives.
- **Problem Solving/Analysis** | Analyzed internal processes while recommending and implementing procedural or policy changes to improve and streamline operations while promoting overall mission accomplishment

PROFESSIONAL EXPERIENCE

United States Army | Various Locations

Strategic Advisory Lead | Sep 2025 – May 2026

Led cross-functional strategic planning and enterprise risk alignment across multiple high-visibility organizations, translating complex operational and security risks into clear recommendations for senior executive decision-making.

- Coordinated four senior-level Commander's Estimates, integrating threat, readiness, resource, and operational information to support enterprise planning and risk-informed decisions
- Directed implementation and adoption of a secure enterprise task-management platform across classified environments, establishing the organization's first structured user training and enrollment process
- Managed high-volume requests for information involving multiple agencies and Congressional stakeholders, creating streamlined coordination processes that improved responsiveness, accountability, and continuity of operations

Director of Operations | Jan 2024 – Sep 2025

Provided senior operational leadership for a large, complex organization of approximately 18,000 personnel, coordinating planning, readiness, training, resource priorities, and execution across diverse functional teams.

- Served as lead project manager for modernization of an enterprise inspection and readiness program, implementing a centralized SharePoint portal and Power BI dashboard that replaced manual processes with real-time reporting
- Directed end-to-end readiness, training, and deployment planning for an 85-member cross-functional staff supporting a high-visibility joint operation, achieving full mission readiness
- Led integration of advanced data analytics, artificial intelligence, and collaborative technology platforms to consolidate disparate information and strengthen executive situational awareness and decision-making
- Partnered with product managers and technical teams to deploy, stress-test, and validate new digital workflows during large-scale multinational exercises, identifying opportunities to improve usability, performance, and operational effectiveness

Enterprise Risk Management Manager | Jun 2022 – Jan 2024

Directed enterprise risk and vulnerability assessment activities for more than 100 critical facilities across 23 countries, leading corrective-action efforts that reduced open security and operational risks by 54%.

- Led rapid risk analysis and implementation of protective measures during more than 70 active security incidents in fewer than 60 days, maintaining uninterrupted operations in complex, high-threat environments
- Managed international emergency preparedness and operational readiness initiatives involving U.S. and foreign partners for the 2022 Qatar World Cup, coordinating complex requirements with zero operational or safety incidents
- Managed, coached, and developed senior professionals while establishing priorities, allocating resources, evaluating performance, and promoting a culture of accountability, innovation, and continuous improvement
- Provided executive-level risk reporting and recommendations that enabled leaders to prioritize resources, mitigate vulnerabilities, and strengthen organizational resilience and business continuity

TECHNOLOGY | PROFESSIONAL DEVELOPMENT

- Built and maintained a Windows 11 cybersecurity lab for hands-on technical development, including operating system installation, hardware upgrades, system hardening, BitLocker encryption, Microsoft Defender configuration, and secure system configuration.
- Developed practical experience with Linux command-line functions, file permissions, user and group administration, file management, log analysis, PowerShell, Python, GitHub, and Visual Studio Code.
- Configured DNS filtering and documented a secure home-network baseline while expanding knowledge of networking, vulnerability management, incident response, access control, SIEM fundamentals, NIST Cybersecurity Framework, and MITRE ATT&CK.
- Observed enterprise cybersecurity operations involving security monitoring, incident response, vulnerability management, and network defense to strengthen understanding of technical security operations.

EDUCATION

Master of Science (M.S.), Environmental Management | Webster University
Bachelor of Science (B.S.), Health Sciences | California State University
Command and General Staff Officer Course | U.S. Army Command and General Staff College

CERTIFICATIONS

Project Management Professional (PMP)® | May 2026
Lean Six Sigma Green Belt | Apr 2024
IFSAC / Pro Board-Certified Hazardous Materials Incident Commander | Dec 2010
CompTIA Security+ | In Progress
Google Cybersecurity Professional Certificate | In Progress

TECHNICAL COMPETENCIES

Software: Microsoft Office Suite 365
Operating Systems: Mac | Microsoft Windows
